For example, how many post I have published, how many post (comments, etc.) I have received, etc. I know that this data is stored on server and I think that it should be possible for people to read it. If it is not possible, is it possible to know the

last activity on the event I have subscribed to, and to get a notification when a event is published? A: This is only possible through special extensions to the Google+ platform. There is currently no such function, or at least not which I'm aware of. You can see here that it can only be done through the Google+ API. New York residents want to lower speed limits after a deadly taxi 0cc13bf012
