In North of Sareth's Gate, there is a region called the Celestial Cartel. In this area, the merchant Roland is trying to dig up the ancient ruins that are very dangerous. This quest, if done well, can earn him the title of a powerful Lord. In exchange for protecting Roland, a very handsome elven man called Falken has agreed to be his bodyguard. In southern territory, the towns of Betzer's Memorial and Melanion Town, a young woman Keia is undergoing training to be a noble lady. Her home is the town of Melanion, whose officials are intending to make a large profit by using the various relics in the town. On the other side of the continent is the country of Philistine. RPGGameWoo.com || 2/5: "This game takes the best of lots of games and just blends them together so well that you're left with a great game. There's also a lot of variety in the things you can do and level up but it doesn't make it seem tedious because you have to complete quests to advance."
RPG.net || 4/5: "Even if you're not familiar with the story, playing the game is a pleasant experience because the storyline is well-presented with nice graphics and sound effects. You'll definitely have a great time playing the game, and the team has done a nice job."
GoatYoutube.com || 4/5: "If you're even slightly a fan of JRPG's like Final Fantasy, Dragon Quest, or even Legend of Zelda, you'll want to check this one out. It's definitely not an average game as it's been very well thought out and well-made. Everything in this game is definitely worth the time you spend on it."
IndieGalaxy.com || 9/10: "The new planet has been recreated perfectly, and each of the game's missions are well worth playing through."
RPGamer || 8/10: "I wish I had known about this game sooner. I might've even gotten some love from my girlfriend. What I lack in actual love I make up for in gaming. I gave it 8/10 because I don't understand why it got a 6.5 on Steam when it was getting 8/10 on all the other review sites. Too many good reviews on other sites to ignore, though."
GameZoid || 4.5/5: "The world of Risen has been crafted with a great attention to detail, and the side quests and monsters add more depth to the game."
AdventureGalaxy.com || 5/5: "Right from the time I booted up this game, I got the impression that I was playing a pretty solid RPG. The first quests are simple enough, but the further you go, the more challenging and engaging the game gets."
RPGFan || 4/5: "It was nice to see the attention paid to the mechanics and gameplay with Risen. It is a class-based action-RPG which places you in a sandbox world, allowing you to travel all over the world with your companions and track down your next side quest. The bff6bb2d33

The combat system is based on a combo system. Combo system: After a certain attack, you can activate an action that consumes stamina. However, if you spend too much stamina, your weapon will be blocked, and the enemy will be able to deliver a devastating blow. So, you need to save up as many stamina points as possible. The better your initial combo, the greater the advantage of rushing into the next action.
