Gunning For Greatness My Life With An Introduction By Jose MourinhoQ: React Native/React Native Router Flashes Blank I am new to React Native. I am trying to develop a simple todo app. But I have hit a road block. I don't have the React Native Console to debug issues, I always get a blank white page when I try to run it. I have tried to add this line on my index.js for the App component `import { enableProdMode } from '@react-native-community/cli'` This gives me the error `Uncaught ReferenceError: enableProdMode is not defined` From what I can tell, the package is installed correctly. I have tried updating, deleting, reinstalling and restarting the app

```
server, and nothing seems to work. I use
Expo as my dev app. index.js import React
from'react'; import ReactDOM from'react-
dom'; import App from './App';
ReactDOM.render(
document.getElementById('root')); App.js
import React, { Component } from'react';
import { Text, TouchableOpacity, View }
from'react-native'; import { Linking } from
'expo'; import { Container, Content, Footer,
ContentRow } from './components'; const
data = require('./data.json'); class App
extends Component { constructor() {
super(); this.state = { tasks: data }; }
componentWillMount() {
Linking.addEventListener('URL', (event) =>
{ if (event.url.includes('todos')) {
this.setState({ tasks }); } });
Linking.addEventListener('AUTH_STATE', ()
=> { if (Linking.auth) {
console.log('LinkIn'); } else { console.
